## Meet and Code 2022 - Survey for participants before the event (I)

Thank you for taking part in this questionnaire.

Answering the questions will not take more than a couple of minutes. The data will be treated anonymously and will be used for the evaluation of the Meet and Code Program.

There will be two questionnaires: one before and one after the events. Please do not be surprised: Some questions will appear in the pre and post questionnaire. This is important for methodological reasons.

By answering the questions, you help us to understand the impact of the event and to gain important insights for future events!

⋮

\* Required

The questionnaire is anonymous so we need you to think of a secret codename which you can enter in this and the second questionnaire at the end of the day so we can match the responses.

You can build a codename by choosing your favorite film character (Spiderman, Shrek, or Elsa) + your birthday. For example, my favorite character is Nemo and my birthday is 10th of March, so my codename would be "Nemo1003". **Please write it down on a piece of paper to remember it for the second survey after the event.**

It doesn't matter which name you choose, the only important thing is that you remember it until after the workshop and enter the same codename again.

1. Please enter your codename here: \*

2. Please choose your country \*

Paste your text below!

#### How the Word Cloud Generator Works

The layout algorithm for positioning words without overlap is available on GitHub under an open source license as d3-cloud. Note that this is the only the layout algorithm and any code for converting text into words and rendering the final output requires additional development.

Go!

Spiral:  Archimedean  Rectangular     5 orientations from ° to °     Number of words:

Scale:  log n   $\sqrt{n}$   n      One word per line

Font:          Download:
